TD
Technology and Development

Technology has increasingly evolved and developed, ever-growing to meet the needs of creative solutions. Led by a team of industry visionaries, mustardTD stands at the forefront of IT recruitment, seamlessly connecting top-tier talent with the diverse needs of the ever-expanding tech ecosystem. We understand that in a world driven by innovation, having the right IT professionals can be a game-changer.

mustardTD is our divisional brand, set up to cater for the ever-evolving sector.
We cover all aspects of the market including infrastructure, data and software development.

infrastructure & security

In the dynamic world of computing, IT infrastructure, networking and cyber security is the lifeline that fuels the flow, storage, and safety of data.

As the foundation or framework supporting organisations and their internal systems, infrastructure is pivotal for seamless operations and sustainable growth.

In essence, IT infrastructure is the key to navigating the complexities of the digital era, enabling organizations to achieve operational excellence and remain competitive in the ever-evolving landscape.

Technical Product Manager
Product Solutions Manager
Product Lead
Product Owner

technical leadership

Technical leadership ensures a project's human and technical aspects come together cohesively. There would be no artificial intelligence without brilliant technical leaders.

We are constantly searching for the next software and technologies to be implemented within the sector, and the specialist leaders we represent are at the forefront of technical innovation.

Technology leaders combine in-depth industry knowledge of technology implementation and transformation, with commercial know-how and business acumen to create technology strategy, lead interdisciplinary technical teams, and liaise with key stakeholders to optimise overall business performance and service offerings.

Technology Leaders are essential to business growth and mustardTD are here to support businesses in hiring the best talent leaders in the market.

VP of Technical Sales

Technical Sales Manager

testimonials

Client

Simone Delahunty-Heath
Recruitment and HR Manager at Mirror Identity

"I've worked with Emily on a number of tech roles in my previous company, and all I can say is wow. She has boundless energy and enthusiasm for the industry and goes above and beyond what you expect from any recruiter, coupled with a real genuine warmth, and ability to actually get the right candidates at the right price, she really goes out of her way to understand what you need. She moves quickly, gives feedback from the clients, asks for feedback when I'd spoken to her candidates. Totally on the ball.

I've worked with many recruiters over my time, and I can count on one hand the ones I'd recommend and use, Emily is one of them. If you're looking for a great genuine relationship, Emily all the way."

Candidate

Joseph G
IT Support Engineer

"Throughout my search in growing my experience professionally I have rarely crossed paths with someone so supportive and motivated to help you through the hiring process.

Emily is one of those rare few. You will be in good hands if you work together!"

testimonials

Client

Nicola Day
HR Business Partner at RedBurn Atlantic

"Emily has been helpful in assisting with our technical recruitment - responsive and efficient, and a good network of candidates to introduce us to. Emily has been professional but friendly in all her dealings and ensured she really understood what we needed in terms of candidate fit.

Would recommend for any technical recruitment."

Client

Jill Littlejohn
Executive and Career Coach at Retail Energy Solutions

"Emily and I worked closely on a recent IT Project Manager and Technical Pre- Sales roles, she was very responsive , understanding the urgent need to fulfil these roles, finding a suitable candidate in 3 days, She was also fun to work with!"

the mustardTD team

Joe Bungey

Operations Director

Technology & Development

Joe's been recruiting across the Creative Industries for over 8 years. Having previously been a leader for the BE team, he's expanded his leadership capabilities to include the US division, FX division and TD Division. Not only does he lead multiple recruitment teams, he also manages our operations, from our software and systems to our tech stack.

Outside of Work: Known to be pretty handy making and designing random things and also running marathons!
